

SKID-LOCK™

PALLETIZING ADHESIVE

UNITIZING WITHOUT WASTE!

...An Economical Ecological Alternative For Securing Pallets.

SKID-LOCK is a true palletizing adhesive that provides secure, effective, economical stabilizing of loads of cartons or paper bags on pallets or slip sheets. This method of palletizing provides an economical, ecological alternative to stretch wrap with **savings up to 50%**...while reducing the adverse effects on our environment. These two factors point to SKID-LOCK as the smart choice for palletizing.

- **SKID-LOCK provides a strong bond**
- **Works on nearly all paper surfaces including recycled paper and cartons.**
- **Allows clean release without carton damage.**
- **SKID-LOCK is repulpable* and non-toxic.****
- **Easy, safe to apply.**
- **Little or no clean-up of applying equipment.**
- **Creates no solid waste.**
- **Substantial savings over stretch wrap.**
- **May be used in refrigerated environments.**
- **Food packaging adhesive.**
- **Available in gallons, five gallon pails and fifty-five gallon lined fibre drums.**

*As tested by the procedures outlined by the American Paper Institute

**Contains no known hazardous materials as defined by OSHA.

Contact **GLUEFAST** or your **GLUEFAST DISTRIBUTOR** for a demonstration in your own facility.

SKID-LOCK...The Smart Choice for Palletizing Loads!
